 OUT OF SCHOOL HOURS CARE

PHILOSOPHY

Hahndorf Primary Out Of School Hours Care aims to provide a happy, stimulating and secure environment in which children can learn and grow according to their needs, interests and abilities.

We value the benefit of social activity during middle childhood and provide fun and constructive play situations to encourage positive interactions and attitudes to all people and cultures.

Through the program we aim to provide children of differing ages and skill levels opportunities to experience success and develop confidence.

We will promote awareness of the environment and encourage sustainable practices throughout the Oshc Service.

We provide appropriate supervision and guidance in a friendly and caring environment, support family life, guide children to foster respect for people and property and are committed to continuous improvement.

(Education & Care Services National Law 2010

Education & Care Services National Regulations 2011

National Quality Standard 3.3

Element 3.3.1 Sustainable practices are embedded in the service

Element 3.3.2 Children are supported to become environmentally responsible and show respect for the environment)
